

## Working Student "Development" (m/f) at Augmented Reality Start-Up

We are currently looking for working students (m/f) to support our Augmented Reality Start-Up in Hamburg. Our goal is to develop and commercialize Augmented Reality applications for Golf - our first product „PuttView Indoor“has recently been launched. Our team of three has relevant industry and sports experience.

We are looking for working students in various areas. A list of possible topics is stated below. We will define the exact topic according to your qualification and interests.

### Possible Topics:

- Development of a SmartWatch Application in order to remote control PuttView
- Evaluation, Implementation and Test of State-of-the-Art Head-Tracking Approaches for PuttView Outdoor (runs on Augmented Reality Glasses)
- Development, Implementation and Test of new Features and Gamification Elements
- Development and Test of Image Processing and Computer Vision algorithms utilizing OpenCV in order to track Golf-specific objects
- Evaluation and Implementation of machine learning algorithms to further enhance PuttView
- Support for the continuous development of PuttView Indoor (runs on Windows PC/ Projector)
- Research, Assessment and Test of alternative display devices
- Prototyping of diverse Augmented Reality Applications (Smartphone AR-Glasses)

### Your Qualifications:

- Bachelor- or Master-Student (m/f) in Electrical Engineering, Mechatronics, Computer Science or equivalent course of studies
- Good C/C++/C# skills
- Passionate about creating new, innovative, and ground-breaking technology products
- Self-motivated and proactive to maintain momentum and progress
- Ability to develop own concepts and quickly learn new technologies

### Our Offer:

- An exciting job, where you can take on responsibility from the very beginning
- A powerful team with friendly, highly qualified colleagues
- And much more...

Have we sparked your interest? Then please contact us with your application documents!
