

Working Student or Internship "UI/UX Developer Augmented Reality" (m/f)

We are currently looking for working students or interns (m/f) to support our Augmented Reality (AR) start-up in Hamburg. Our first product „PuttView“, an AR-application for golf practice, is already successfully launched in the EU, US and Japan. Our dynamic team has relevant industry and sports experience.

We are looking for motivated people who would like to contribute to the high quality and usability of our product. We will define the extent of this project according to your qualification and interests.

Topics:

- Improving the current UI and implementing new UI components for our products PuttView Indoor (Spatial AR) as well as PuttView Outdoor (Microsoft HoloLens)
- Interaction design for new UI modules
- Building a UI pattern library
- Quality control: ensuring that our UI meets state-of-the-art usability and UX standards

Your Qualifications:

- Bachelor- or Master-Student (m/f) in Computer Science or Software Engineering with a focus on Human-Computer-Interaction, interaction design, usability or similar
- Experience in developing interfaces in Unity
- Experience in HoloLens or Android app development is a plus
- Knowledge in object-oriented programming (C/C++/C#)
- Passionate about creating visually appealing user interfaces with great usability and UX
- Self-motivated and proactive to maintain momentum and progress
- Ability to develop own concepts and quickly learn new technologies

Our Offer:

- An exciting opportunity, where you can take on responsibility from the very beginning
- A powerful team with friendly, highly qualified colleagues
- Flexible working hours
- And much more...

Have we sparked your interest? Then please contact us with your application documents!
