

Working Student / Thesis (m/f/d) "Web Configurator" for Augmented Reality Golf Application

We are currently looking for students (m/f/d) interested in writing their bachelor or master thesis in the field of Web Development to support our Augmented Reality (AR) Start-Up in Hamburg. Our first product „PuttView“, an AR-application for golf practice, is already successfully launched in the EU, US and Asia. Our dynamic team has relevant industry and sports experience.

We are looking for talents (m/f/d) who would like to contribute to our marketing activities by developing a web configurator for our innovative product. We will define the exact topic according to your qualification and interests.

Possible Topics:

- Develop and implement a Web UI tool for customized configuration of our product
- Maintenance and further development of our online presence
- Create new website layouts / user interfaces by using standard web development practices

Your Qualifications:

- Bachelor- or Master-Student (m/f/d) in "Web Development" or equivalent course of studies
- Proven working experience in web programming
- Good knowledge of HTML / HTML5, CSS, JavaScript
- Familiarity with modern web environments and tools like Node.js, AngularJS, React etc.
- PHP and other relevant back-end coding languages are a plus
- Excellent communication skills in English
- Self-motivated and proactive to maintain momentum and progress

Our Offer:

- An exciting job, where you can take on responsibility from the very beginning
- A powerful team with friendly, highly qualified colleagues
- Flexible working hours
- And much more...

Have we sparked your interest? Then please contact us with your application documents!
