

Working student

“IT Administration for Augmented Reality Sports Start-up” (m/f/d)

We are an Augmented Reality (AR) start-up in Hamburg and are currently offering a working student position for the IT Administration tasks in our start-up. Our first product „PuttView“, an AR-application for golf practice, is already successfully launched in the EU, US and Asia. Our dynamic team has relevant industry and sports experience.

We are looking for motivated students who would like to contribute to the development and maintenance of our IT infrastructure, as well as to the high quality and usability of our product . We will define the extent of the tasks according to your qualification and interests.

Topics:

- Support and maintenance of the IT and networking infrastructure in our offices
- Support and maintenance of our remote servers and the software collaboration tools
- Defining and execution of IT Administration protocols
- Administration of the workstations and technical assistance to the team
- Assist in preparing our product for delivery from an IT standpoint

Your Qualifications:

- Bachelor/Master-Student (m/f/d) in Computer Science with a focus on IT Administration, Networking or similar
- Experience in setting up Windows/Linux based servers and IT collaboration tools
- Experience with network configuration and networking protocols
- Familiarity with administration of VCSs like svn or git
- Knowledge in object-oriented programming (C#/C++) is a plus
- Self-motivated and proactive to maintain momentum and progress
- Ability to develop own concepts and quickly learn new technologies

Our Offer:

- An exciting opportunity, where you can take on responsibility from the very beginning
- A powerful team with friendly and highly qualified colleagues
- Flexible working hours
- And much more...

Have we sparked your interest? Then please contact us with your application documents!
